

# BASSHEADS 901 PRO

## PACKAGE CONTENTS

- 1 UNIT boAt BassHeads 901 Pro
- 1 UNIT Manual
- 1 UNIT Warranty Card

## PRODUCT OVERVIEW

## QUICK START

1. Plug your headset's 3.5mm jack into the computer's input port.
2. Adjust the volume before listening
3. Adjust the microphone direction

## VOLUME SETTINGS

For Maximum Volume: Check volume levels on the headset and the connected device.

## USB PLUG & PLAY SETTINGS

The headset might not be set as the default device when you connect it. Make your headset the default audio output device when you connect it under the playback devices.

- Right-click on the Sound icon in the system tray and click on Playback Devices.
- If the headset is not listed, then right-click on the empty space and make sure there is a checkmark on Show Disabled Devices.
- Once it is checked, you should see the headset listed.
- Ensure that the correct device is selected and set as default for playback (Highlight the device and hit "set as default" Right on the device and hit Enable).

*Note: If you are using any third-party app, please make sure you have selected BH901 Pro for Audio and Microphone.*
