

Diagram illustrating the correct positioning of a child's head in a car seat. The headrest is shown with a green dot indicating the correct position for the child's head.

The diagram shows a car stereo on the left and a smartphone on the right. A red arrow points from the car stereo to the smartphone, indicating the pairing process. The car stereo has a red '1' below it, and the smartphone has a red '2' below it. The smartphone screen displays a Bluetooth pairing interface with the text 'Bluetooth' and 'Pair New Device'.

Download the 'SmartLife' app from the App Store or Google Play.

Turn on the TV and connect it to the internet.

Open the 'SmartLife' app and select the TV.

Use the app to control the TV.

Figure 1 illustrates the two-step process of the proposed system. In the first step, a user provides a voice sample, which is processed by a 'Voice Sample Processor' to extract 'Voice Features'. In the second step, the 'Voice Features' are used by a 'Voice Feature Classifier' to identify the user's 'Voice Identity'.

Cómo: La etiqueta se debe usar en el momento de salir de la sala.
 Después de haber usado la etiqueta, se debe volver a usar la etiqueta para la siguiente sala.

Discover the following features of your device only on the Motorola Moto:

- Access DirectVoice (voicemail)
- Battery & Charging status
- Touch Gesture Customization
- Smart Diagnostic Mode
